

Jens Michael Wegmann

CEO Industry Solutions

Resume

Born October 6, 1965 in Hameln, Germany

Professional History

Jens Michael Wegmann started his career at Siemens in 1989 when working for robotics development in Munich as part of his graduation work in electrical engineering at the Technical University of Brunswick. After holding various positions in automation, plant engineering and service for the pulp and paper industry in Atlanta and for the chemical and iron and steel making industries in Erlangen he took over as head of the Metals, Mining & Paper Technologies unit of the former Industrial Solutions and Services Group (I&S) in 2000. At the same period, Jens Michael Wegmann acted as speaker for the Siemens Sector Development Boards 'Pulp & Paper' and 'Metals & Mining'. In 2002 he was named head of the globally active 'Security Solutions' Business Unit of Siemens Building Technologies in Switzerland and speaker of the Market Development Boards 'Sports Venues' of Siemens and 'Airports' of Building Technologies.

Effective October 1, 2008, Jens Michael Wegmann was appointed CEO of the Siemens Industry Solutions Division (headquartered in Erlangen), with its Business Units Industrial Technologies, Metals Technologies and Water Technologies. The Industry Solutions Division has a worldwide workforce of around 31,500.
