

**Werner Auer**

**CEO Siemens VAI Metals Technologies GmbH & Co.**

**CEO Metals Technologies**

**Industry Solutions Division**

**Industry Sector**

Werner Auer holds a degree in power engineering and power management from the Technical University of Vienna. In 1982 he joined the Austrian company VAI (Voest Alpine Industrieranlagenbau) and was entrusted with a sequence of management positions in international plant construction with an emphasis on steel mills and environmental technology. From 1997 onwards he worked as Managing Director and Spokesman for VAI Fuchs in Germany and as head of the Steel Mills, Environmental Technology and Long Products Division of the VAI Group of companies. In October 2006, Auer was appointed CFO of Siemens Metals Technologies (Linz). In July 1, 2009 he took over the position as CEO of Metals Technologies and is heading the business segments Casting & Rolling, Electrics & Automation, Ironmaking, Metallurgical Services, Steel Plants, Mini Mills & Environmental Technology and Mining. Metals Technologies belongs to the Siemens Industry Solutions Division and offers as a full-line supplier solutions and services for the entire life cycle of metallurgical plants from one source, including consulting, maintenance solutions and training courses.

Werner Auer was born on April 25, 1955, in Julbach, Germany.
