

Tim Dawidowsky
General Manager of the Industry Solutions Division of
Siemens North East Asia
Senior Vice President and General Manager of the Industry Solutions
Division of Siemens Ltd., China

Tim Dawidowsky attended the Technical University of Berlin, Germany, where he received his Master Degree in Industrial Engineering and Business Administration with main focus on mechanical engineering. In 1993 he started his career at the Siemens Power Generation Group and headed different functions in the manufacturing locations for gas turbines, steam turbines and generators through the year 2003. Afterwards, he served as Vice President Procurement for Industrial Plants business of the former Siemens Industrial Solutions and Services Group (I&S) at headquarter in Erlangen, Germany, being responsible for all sourcing activities in the Metals, Mining, Pulp & Paper, Oil & Gas and Marine business.

After being the General Manager for Marketing & Business Development as well as for Oil & Gas and Marine within I&S China, Dawidowsky was appointed Senior Vice President and General Manager of Industry Solutions Division of Siemens Ltd., China, in May 2007. Since October 2008, he has additional responsibility as General Manager of Industry Solutions Division for North East Asia. From May 2010 onwards he will be in charge of the Business Segment Casting & Rolling of Metals Technologies in Linz, Austria.

Tim Dawidowsky was born on August 3, 1966, in Husum, Germany.
