

**Günther Winter**  
**Innovation and Product Portfolio Manager Electrics & Automation**  
**Siemens Metals Technologies**  
**Industry Solutions Division**  
**Industry Sector**

Günther Winter studied electrical engineering and graduated as electrical engineer at the Technical University of Kaiserslautern, Germany. He started his career as commissioning engineer in 1979 at Siemens in Erlangen. Until 1991 he was a commissioning engineer & leader and development engineer for Plate Mill, Hot Strip Mill and Cold Rolling Mills. In 1991 Winter joined the sales and engineering department as a sales manager and project manager. In 2001 he was delegated to Siemens China to develop the business for hot-rolling mills. In 2004 he returned to headquarters and was assigned a member of the Siemens - VAI integration team. In 2006 he was appointed as Innovation Manager for Rolling & Processing Electrics and Automation.

In 2008, Günther Winter was appointed Innovation and Product Portfolio Manager for Electrics and Automation at Siemens Metals Technologies.

Günther Winter was born on May 30, 1958 in Mürzzuschlag, Austria.
