Facts and figures for shareholders
Fiscal 2009

(October 1, 2008 – September 30, 2009)

Siemens delivered a resilient performance in fiscal 2009. Despite operating in a contracting global economy struggling with the aftermath of a major financial crisis, we kept our revenue within 1% of the prior-year level. The many streamlining initiatives we launched in fiscal 2008, particularly including our global program for the reduction of marketing, selling and general administrative expenses (SG&A program), helped us surpass our mid-year outlook for Profit. New orders declined 16% year-over-year, due to deep downturns in industrial production, customer postponements of energy infrastructure projects and growing uncertainty in the healthcare equipment market. Our Sectors are closely monitoring customer demand relative to production capacity.

Income from continuing operations and Net income were strongly influenced by our stake in Nokia Siemens Networks B.V. (NSN). Equity investment losses related to NSN totaled €543 million during the year, and at the end of the year we also took an impairment of €1.634 billion on our stake in NSN based on a review of its prospects in coming years. These impacts, reported within our Equity Investments segment, were only partly offset by a gain on the sale of our share of Fujitsu Siemens Computers (Holding) B.V.
Revenue was within 1% of the prior-year level, at €76.651 billion. On an organic basis, excluding the net effect of currency translation and portfolio transactions, revenue was stable. The Energy and Healthcare Sectors delivered higher revenue year-over-year. This growth was offset by a revenue decline in the Industry Sector driven by recession-driven downturns in markets for factory automation, machine-building, automotive, construction and process automation. On a geographic basis, revenue grew in the Americas and in Asia, Australia but declined in the region which comprises Europe, the Commonwealth of Independent States (C.I.S.), Africa, and the Middle East.

Orders came in 16% lower, at €78.991 billion. On an organic basis, orders were down 14% year-over-year. Orders in Industry declined due to the market conditions mentioned above, while orders in Energy were lower due in part to customer postponements of large projects. Orders were stable in Healthcare. Orders declined in all three of Siemens’ reporting regions. The Sectors’ combined book-to-bill ratio (defined as the ratio of new orders and revenue) for fiscal 2009 was 1.04. The combined order backlog at the end of the year stood at €81.2 billion.

Total Sectors profit rose to €7.466 billion. Total Sectors profit—a measure of the combined profit from our three Sectors—climbed 13% from €6.606 billion in the prior year, driven by substantial profit turnarounds at the Fossil Power Generation and Mobility Divisions. A year earlier, these Divisions posted losses and took a combined total of more than €1 billion in project charges. At the Sector level, the Energy and Healthcare Sectors increased their profit in fiscal 2009. Industry’s profit declined year-over-year despite the improvement at Mobility, as lower revenue and related factors reduced profit at other Divisions in the Sector.

Income from continuing operations rose to €2.457 billion. Basic earnings per share (EPS) rose to €2.60. A year earlier, Income from continuing operations was €1.859 billion and corresponding basic EPS were €1.91. Both periods included substantial negative profit impacts outside the Sectors. The current year was burdened by the NSN impacts mentioned above, totaling €2.177 billion. A year earlier, the loss related to NSN within Equity Investments was €119 million. Fiscal 2008 also included €1.081 billion (pretax) in charges for severance under our global SG&A reduction program, a provision of approximately €1 billion (pretax) associated with settlement negotiations with authorities in the U.S. and Germany, and a one-time endowment of €390 million (pretax) related to the establishment of the Siemens Stiftung (foundation) in Germany. Expenses for outside advisors engaged in connection with investigations into alleged violations of anti-corruption laws and related matters as well as remediation activities fell to €95 million in fiscal 2009 from €430 million a year earlier.

Net income was €2.497 billion compared to €5.886 billion in the prior year. Basic EPS were €2.65 compared to €6.41 in fiscal 2008. The difference is due to discontinued operations, which contributed €40 million to Net income in fiscal 2009 compared to €4.027 billion a year earlier. Fiscal 2008 Income from discontinued operations included a divestment gain and operating results related to Siemens VDO Automotive (SV) totaling approximately €5.5 billion, partly offset by a loss of approximately €1.0 billion associated with a transfer of 51% of Siemens Enterprise Communications into a joint venture.

Free cash flow from continuing operations was €3.786 billion and the cash conversion rate (ratio of Free cash flow and profit) was above target. A year earlier, Free cash flow from continuing operations was €5.739 billion. The decline year-over-year includes substantially lower billings in excess as well as a substantial decrease in trade payables compared to a year earlier. In addition, fiscal 2009 included substantial cash outflows corresponding to charges taken in fiscal 2008. Among these outflows were severance payments of €796 million for the global SG&A program and other personnel-related restructuring measures, €1.008 billion paid to authorities in the U.S. and Germany following resolution of legal proceedings, and substantial cash outflows stemming from project charges at Fossil Power Generation, Mobility and Siemens IT Solutions and Services.

Dividend. The Siemens Managing Board and Supervisory Board have proposed a dividend of €1.60 per share. The prior-year dividend was also €1.60 per share.

Outlook
Siemens anticipates that conditions in the manufacturing sector and world financial markets will remain challenging in fiscal 2010. Following a double-digit decline in orders in fiscal 2009, we expect only a mid-single-digit percentage decline in organic revenue in fiscal 2010 due to the stabilizing effect of our strong order backlog. We expect Total Sectors profit between €6.0 and €6.5 billion in fiscal 2010, and an increase of approximately 20% in Income from continuing operations compared to €2.457 billion in the prior year. This outlook is conditional on no material deterioration in our pricing power during the fiscal year and on improving market conditions in the second half, particularly for our shorter-cycle businesses. Furthermore this outlook excludes major impacts that may arise during the fiscal year from restructuring, portfolio transactions, impairments, and legal and regulatory matters.

1. New orders, adjusted or organic growth rates of revenue and new orders, book-to-bill ratio; ROE, ROCE, free cash flow; cash conversion rate; EBITDA (adjusted); net debt and adjusted industrial net debt are or may be non-GAAP financial measures. A definition of these supplemental financial measures, a reconciliation to the most directly comparable IFRS financial measures and information regarding the usefulness and limitations of these supplemental financial measures are available on our Investor Relations website under www.siemens.com/nonGAAP.
3. Adjusted for portfolio and currency translation effects.
4. During the second quarter of fiscal 2009 Electronics Assembly Systems has been reclassified to Other Operations. The presentation of certain prior-year information has been reclassified respectively.
5. Earnings per share – attributable to shareholders of Siemens AG. For fiscal 2009 and 2008 weighted average shares outstanding (basic) (in thousands) amounted to 864,818 and 893,166 respectively.
6. Discontinued operations consist of Siemens VDO Automotive activities as well as of carrier networks, enterprise networks and mobile devices activities.
7. Continuing and discontinued operations.
8. Profit margin including PPA effects and integration costs for Healthcare is 12.2% and for Diagnostics 9.7%.
9. Return on equity is calculated as annualized Income before income taxes of fiscal 2009 divided by average allocated equity for fiscal 2009 (€ 1.175 billion).
Information to supplemental financial measures

New orders and backlog; adjusted or organic growth rates of Revenue and new orders; book-to-bill ratio; return on equity, or ROE; return on capital employed, or ROCE; Free cash flow; cash conversion rate, or CCR; EBITDA (adjusted); EBIT (adjusted); earnings effect from purchase price allocation (PPA effects) and integration costs; net debt and adjusted industrial net debt are or may be non-GAAP financial measures. These supplemental financial measures should not be viewed in isolation as alternatives to measures of Siemens’ financial condition, results of operations or cash flows as presented in accordance with IFRS in its Consolidated Financial Statements. A definition of these supplemental financial measures, a reconciliation to the most directly comparable IFRS financial measures and information regarding the usefulness and limitations of these supplemental financial measures can be found on Siemens' Investor Relations website at www.siemens.com/nonGAAP.

The Siemens share

As of September 30, 2009, the capital stock of Siemens AG totaled approximately €2.7 billion, representing some 914 million no-par value shares in registered form. Of these shares, about 866 million were outstanding at the end of fiscal 2009. Each share represents one vote at the Annual Shareholders’ Meeting. On September 30, 2009, Siemens shares were listed on all German stock exchanges as well as on stock exchanges in New York, London and Zurich. They were also traded on the stock exchange in Milan. On the New York Stock Exchange, Siemens shares are traded in the form of American Depositary Receipts (ADRs), with one ADR corresponding to one Siemens share. For fiscal 2009, we’re proposing a dividend of €1.60.1 Despite the weakened economic environment, our dividend has remained stable for the third year in a row. Our dividend payout ratio for fiscal 2009 is 56%.2 We intend to continue pursuing an attractive dividend policy for our investors in the future.

Siemens' financial calendar/Information resources

In addition to an Annual Report at the end of each fiscal year, Siemens publishes quarterly consolidated financial statements. All of these financial reports are available on our internet site at: www.siemens.com/financialreports

Printed copies of the Annual Report are available free of charge from:

- E-mail siemens@bek-gmbh.de
- Internet www.siemens.com/order_annualreport

This document contains forward-looking statements and information – that is, statements related to future, not past, events. These statements may be identified by words such as “expects,” “looks forward to,” “anticipates,” “intends,” “plans,” “believes,” “seeks,” “estimates,” “will,” “project” or words of similar meaning. Such statements are based on the current expectations and certain assumptions of Siemens’ management, and are, therefore, subject to certain risks and uncertainties. A variety of factors, many of which are beyond Siemens’ control, affect Siemens’ operations, performance, business strategy and results and could cause the actual results, performance or achievements of Siemens to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. For Siemens, particular uncertainties arise, among others, from changes in general economic and business conditions (including margin developments in major business areas and recessionary trends); the outcome of pending investigations and legal proceedings and actions resulting from these investigations; the potential impact of such investigations and proceedings on Siemens’ ongoing business including its relationships with governments and other customers; the potential impact of such matters on Siemens’ financial statements, as well as various other factors. More detailed information about certain of the risk factors affecting Siemens is contained throughout this report and in Siemens’ other filings with the SEC, which are available on the Siemens website, www.siemens.com, and on the SEC’s website, www.sec.gov. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in the relevant forward-looking statement as expected, anticipated, intended, planned, believed, sought, estimated or projected. Siemens does not intend or assume any obligation to update or revise these forward-looking statements in light of developments which differ from those anticipated.
