Ad-hoc Announcement according to § 15 WpHG (Securities Trading Act)

Siemens provides a proposal for Alstom together with Mitsubishi Heavy Industries

The Managing Board of Siemens AG resolved with the approval of the Supervisory Board to join forces with Mitsubishi Heavy Industries, Ltd. (MHI) and to provide a proposal for the French multinational conglomerate. Pursuant to this, MHI and Siemens propose several transactions in order to preserve Alstom's current perimeter in almost all its activities, enhance its industrial sustainability, strengthen its position as a diversified global player in energy and transport, and strengthen its financial structure, while remaining a major French listed group.

While MHI intends to form a broad industrial alliance with Alstom and create three joint ventures, injecting into Alstom Euro 3.1 billion in cash, and to become a stable and long-term shareholder of Alstom by offering to acquire up to 10 per cent stake from Bouygues SA, Siemens intends to acquire 100 per cent of Alstom's gas business including related service contracts for Euro 3.9 billion in cash. Siemens intends to offer a job guarantee for three years in France and Germany for the transferred business after the closing of the transaction. Siemens plans to establish its European Headquarters for the combined gas service business in France.

After closing of the MHI and Siemens transaction in Power and after joint considerations of regulatory implications, Siemens intends to discuss diligently and in good faith solutions which create a strong European Champion with global reach and sustainable business strategies going forward in the fields of Mobility in the best interest of all parties involved. Siemens would then also be prepared to becoming a long-term anchor shareholder in a combined Transport business.

Disclaimer

This document includes supplemental financial measures that are or may be non-GAAP financial measures. Orders and order backlog; adjusted or organic growth rates of revenue and orders; book-to-bill ratio; Total Sectors profit; return on equity (after tax), or ROE (after tax); return on capital employed (adjusted), or ROCE (adjusted); Free cash flow, or FCF; adjusted EBITDA; adjusted EBIT; adjusted EBITDA margins, earnings effects from purchase price allocation, or PPA effects; net debt and adjusted industrial net debt are or may be such non-GAAP financial measures. These supplemental financial measures should not be viewed in isolation or as alternatives to measures of Siemens' net assets and financial positions or results of operations as presented in accordance with IFRS in its Consolidated Financial Statements. Other companies that report or describe similarly titled financial measures may calculate them differently. Definitions of these supplemental financial measures, a discussion of the most directly comparable IFRS financial measures, information regarding the usefulness of Siemens' supplemental financial measures, the limitations associated with these measures and reconciliations to the most comparable IFRS financial measures are available on Siemens' Investor Relations website at www.siemens.com/nonGAAP. For additional information, see supplemental financial measures and the related discussion in Siemens' most recent annual report on Form 20-F, which can be found on our Investor Relations website or via the EDGAR system on the website of the United States Securities and Exchange Commission.

This document contains statements related to our future business and financial performance and future events or developments involving Siemens that may constitute forward-looking statements. These statements may be identified by words such as "expect," "look forward to," "anticipate," "intend," "plan," "believe," "seek," "estimate," "will," "project" or words of similar meaning. We may also make forward-looking statements in other reports, in presentations, in material delivered to shareholders and in press releases. In addition, our representatives may from time to time make oral forward-looking statements. Such statements are based on the current expectations and certain assumptions of Siemens' management, and are, therefore, subject to certain risks and uncertainties. A variety of factors, many of which are beyond Siemens' control, affect Siemens' operations, performance, business strategy and results and could cause the actual results, performance or achievements of Siemens to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements or anticipated on the basis of historical trends. These factors include in particular, but are not limited to, the matters described in Item 3: Key information—Risk factors of our most recent annual report on Form 20-F filed with the SEC, in the chapter C.9.3 Risks of our most recent annual report prepared in accordance with the German Commercial Code, and in the chapter C.7 Risks and opportunities of our most recent interim report.

Further information about risks and uncertainties affecting Siemens is included throughout our most recent annual and interim reports, as well as our most recent earnings release, which are available on the Siemens website, www.siemens.com, and throughout our most recent annual report on Form 20-F and in our other filings with the SEC, which are available on the Siemens website, www.siemens.com, and on the SEC's website, www.sec.gov. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results, performance or achievements of Siemens may vary materially from those described in the relevant forward-looking statement as being expected, anticipated, intended, planned, believed, sought, estimated or projected. Siemens neither intends, nor assumes any obligation, to update or revise these forward-looking statements in light of developments which differ from those anticipated.

Due to rounding, numbers presented throughout this and other documents may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.
