Notes and forward-looking statements

This document contains statements related to our future business and financial performance and future events or developments involving Siemens that may constitute forward-looking statements. These statements may be identified by words such as “expect,” “look forward to,” “anticipate,” “intend,” “plan,” “believe,” “seek,” “estimate,” “will,” “project” or words of similar meaning. We may also make forward-looking statements in other reports, in presentations, in material delivered to shareholders and in press releases. In addition, our representatives may from time to time make oral forward-looking statements. Such statements are based on the current expectations and certain assumptions of Siemens’ management, of which many are beyond Siemens’ control. These are subject to a number of risks, uncertainties and factors, including, but not limited to those described in disclosures, in particular in the chapter Risks in the Annual Report. Should one or more of these risks or uncertainties materialize, or should underlying expectations not occur or assumptions prove incorrect, actual results, performance or achievements of Siemens may (negatively or positively) vary materially from those described explicitly or implicitly in the relevant forward-looking statement. Siemens neither intends, nor assumes any obligation, to update or revise these forward-looking statements in light of developments which differ from those anticipated.

This document includes – in the applicable financial reporting framework not clearly defined – supplemental financial measures that are or may be alternative performance measures (non-GAAP-measures). These supplemental financial measures should not be viewed in isolation or as alternatives to measures of Siemens’ net assets and financial positions or results of operations as presented in accordance with the applicable financial reporting framework in its Consolidated Financial Statements. Other companies that report or describe similarly titled alternative performance measures may calculate them differently.

Due to rounding, numbers presented throughout this and other documents may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

Guidance FY 18 raised

Guidance update

We continue to expect geopolitical uncertainties such as trade restrictions that may affect investment sentiment.

Following the strong results achieved in the first half of fiscal 2018, we raise our outlook for basic EPS from net income to the range of €7.70 to €8.00, excluding severance charges, up from the range of €7.20 to €7.70.

Furthermore we confirm our expectation of modest growth in revenue, net of effects from currency translation and portfolio transactions, and continue to anticipate that orders will exceed revenue for a book-to-bill ratio above 1 for the full fiscal year.

We continue to expect a profit margin of 11.0% to 12.0% for our Industrial Business also excluding severance charges.

This outlook excludes charges related to legal and regulatory matters and potential effects which may follow the introduction of a new strategic program.
