Notes and forward looking statements

This document contains statements related to our future business and financial performance and future events or developments involving Siemens that may constitute forward-looking statements. These statements may be identified by words such as “expect,” “look forward to,” “anticipate” “intend,” “plan,” “believe,” “seek,” “estimate,” “will,” “project” or words of similar meaning. We may also make forward-looking statements in other reports, in presentations, in material delivered to shareholders and in press releases. In addition, our representatives may from time to time make oral forward-looking statements. Such statements are based on the current expectations and certain assumptions of Siemens’ management, of which many are beyond Siemens’ control. These are subject to a number of risks, uncertainties and factors, including, but not limited to those described in disclosures, in particular in the chapter Risks in the Annual Report. Should one or more of these risks or uncertainties materialize, or should underlying expectations not occur or assumptions prove incorrect, actual results, performance or achievements of Siemens may (negatively or positively) vary materially from those described explicitly or implicitly in the relevant forward-looking statement. Siemens neither intends, nor assumes any obligation, to update or revise these forward-looking statements in light of developments which differ from those anticipated.

This document includes – in IFRS not clearly defined – supplemental financial measures that are or may be non-GAAP financial measures. These supplemental financial measures should not be viewed in isolation or as alternatives to measures of Siemens’ net assets and financial positions or results of operations as presented in accordance with IFRS in its Consolidated Financial Statements. Other companies that report or describe similarly titled financial measures may calculate them differently.

Due to rounding, numbers presented throughout this and other documents may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.
Q3 FY 2017
Fully on track for another strong year

- Strong net income up 7% at €1.5bn – EPS at €1.74 up 6%

- Industrial Business margin at 10.4% (-40bps), impacted by M&A related effects to Gamesa and Mentor Graphics of 60bps

- Revenue rose 8% driven by SGRE, Mobility and Digital Factory; +3% comparable

- Orders -6% due to sharply lower large orders in PG and SGRE; -9% comparable; smaller orders significantly up, continued strong short-cycle business

- Solid free cash flow of €0.9bn

- Further steps taken to strengthen leadership position in digitalization – MindSphere gains traction
DF: Very strong short-cycle & software business momentum
PD: Selected pick-up in orders, structural realignment continues

- **LCoEs** approaching grid parity
- **Auctions** replacing feed-in tariffs
- **Pricing pressure** leads to global market consolidation

Performance challenges – integration progressing

**Current status**
- Q3-performance below expectations mainly due to temporary downturn in Indian market
- New team in place – gaining traction
- Rigorous focus on integration and cost
  - Announced synergies of €230m the minimum, to be realized quicker in year three
  - Footprint optimization started
  - Portfolio streamlining along best-of-both-worlds

**Strategic governance**
- Fully consolidated in Siemens AG – ensured via mandatory items
- Siemens AG Managing Board oversight & Siemens AG nominated members in SGRE Board of Directors

Guidance FY 2017 confirmed

We confirm our expectations for fiscal 2017 presented with our results for Q2 FY 2017.

We continue to expect modest growth in revenue, net of effects from currency translation and portfolio transactions, and anticipate that orders will exceed revenue for a book-to-bill ratio above 1.

We expect the profit margin of our Industrial Business in the range of 11.0% to 12.0%, and basic EPS from net income in the range of €7.20 to €7.70.

This outlook includes portfolio changes already closed in the first nine months of fiscal 2017, particularly the acquisition of Mentor Graphics and the Gamesa merger, which burden Industrial Business profit margin and basic EPS from net income in fiscal 2017.

The outlook continues to exclude charges related to legal and regulatory matters as well as potential burdens associated with pending portfolio matters.
